YOU

because we know we'll go
further together.

We are committed to building a community where everyone thrives. We meet the needs that our neighbors face today, but we're not comfortable stopping there. We invest in moving people to long-term stability, security, health, and happiness, and we challenge the systems and practices that stand in the way.

Your gift to United Way moves us further toward a stronger, more resilient community. Join us in building a better future for all.

ALICE is at the heart of everything we do.
